Professional profile

Second-year Electrical and Electronics Engineering student with strong analytical skills, very fast and accurate typing, and experience presenting information clearly using tools like PowerPoint and Word. Confident in organizing data, preparing simple reports, and supporting online research tasks for growth and data entry projects.

Education

Bachelor of Science in Electrical and Electronics Engineering

Chuka University, Kenya

September 2024 – Present

- Second-year student with consistently good grades and strong performance in maths, physics, and technical subject.
- Regularly prepare structured assignments and presentations, focusing on clear data organization and explanation.

Relevant experience

Academic Projects and Personal Work

Student, Chuka University

September 2024 – Present

- Created and delivered class presentations using PowerPoint, organizing research findings into clear slides and visual summaries for classmates and lecturers.
- Prepared written reports and assignments in Word, formatting and presenting data in tables and bullet points to make complex information easy to understand.
- Practiced fast and accurate typing while preparing notes, summaries, and online submissions, focusing on low errors and consistent formatting.

Skills

- Fast and accurate typing for data entry tasks.
- Microsoft Word for structured documents and data presentation.
- Microsoft PowerPoint for clear, simple presentations and visual summaries.
- Basic data organization (sorting information, using tables, maintaining simple lists).
- Internet research and information gathering using search engines.
- Time management and ability to meet assignment and project deadlines.
- Strong numerical and analytical foundation from engineering studies.

Languages

- English – Fluent
- Swahili – Fluent

Achievements and interests

- Consistently scoring good grades in the first years of Electrical and Electronics Engineering, showing discipline and the ability to learn new skills quickly.
- Interested in data, technology, and continuous self-improvement through online learning and practical projects.

HOBBIES

Playing keyboard.
